

Since 2001, Alaskan® has helped protect your family before and after snowstorms. Our premium ice melters are effective in extreme conditions, down to -35°. No other product on the market will take on snow or ice at such low temperatures! Fast-acting and long-lasting, the improved formulation of our exclusive INFLUX® technology will melt ice 2x faster. On contact, Premier Tech's INFLUX® technology weakens the ice in seconds. Choosing Alaskan® means keeping totally safe to enjoy winter!
